GROWN AND FOR SALE AT

CHAPPELOW'S NURSERY.

Established 1882.

Nursery and Residence, Mountain Avenue, DUARTE, California.
Express and Post Office, MONROVIA, Los Angeles Co., California.

Wm. CHAPPELOW, Proprietor.

TERMS OF SALE.

The articles in this list will be furnished at prices named without regard to size of order, except in case of long lists of selected varieties, when such discount will be made from retail prices as the character of the order will justify. Orders for stock in assortment must amount to $50 or more to entitle them to the lowest rates quoted.

While I exercise the greatest diligence and care to have all my trees, etc., true to label, and I hold in readiness, on proper proof, to replace all trees etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and myself, that my guarantee of genuineness shall in no case make me liable for any sum greater than that originally received for said trees, etc., that prove untrue.

My packing is done with moss and sawdust, and in the most thorough manner, so as to insure carriage for long distances, for which no charge is made. No charge for packing cases.

TERMS CASH, unless by special agreement. Where parties are known to me or furnish satisfactory reference I am willing to accept bankable note, at 30 or 60 days.

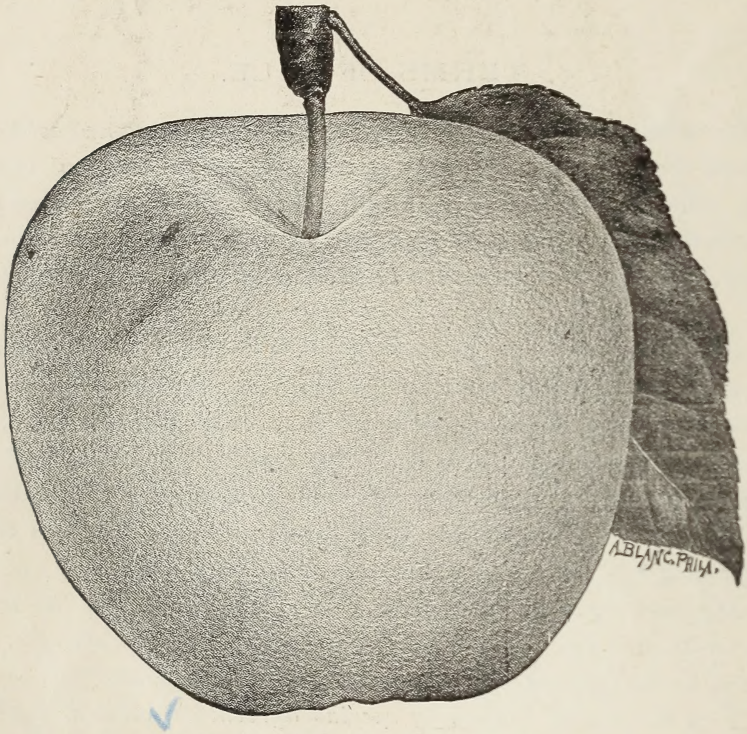
The publication of this list abrogates all previous quotations.

For further information write me. All inquiries cheerfully and promptly answered.

FRUIT TREES.

Prices, except where noted, 1 year old, 25 cents each. $20 per 100. $175 per 1000.

APPLES—White Winter Pearmain, Bellflower, R. I. Greening, Roxbury Russett. Astrachan.



"HEISLER" APPLE (Stones Eureka)

Red, slightly streaked on one side, two weeks later than Pearmain and a better keeper. 30c each; $25 per 100.

PEARS—Bartlett. Winter Nellis, Kieffer's Hybrid, LeCont.

APRICOTS—Royal.

GREEN-GAGE.

NECTARINE—Early violet.

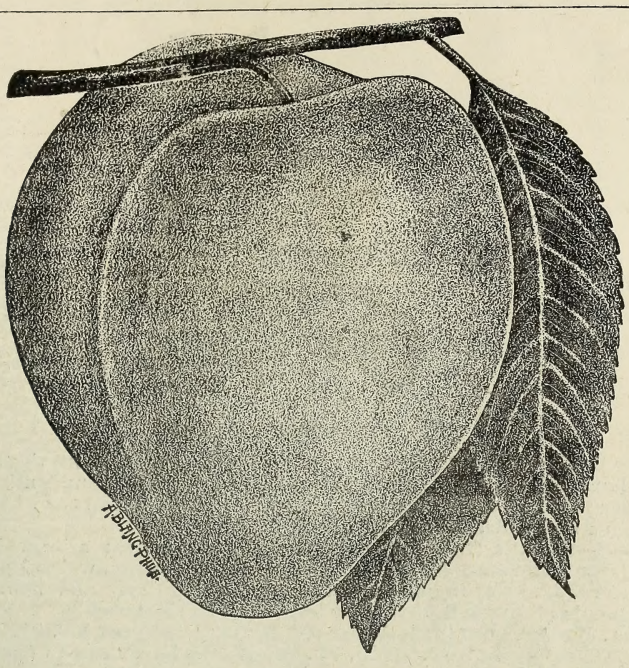
QUINCE—Apple.

LOQUATS—Japan Giant.

ENGLISH WALNUTS—The common variety, grown from large, selected nuts. 2 years old, 30c each; 1 year old, $12 per 100; 2 years old $17.50 per 100.

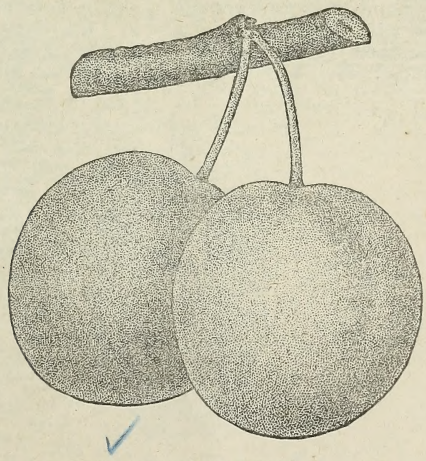
CALIFORNIA SOFT SHELL—The trees commence bearing when only four or five years old, and bear full crops every year; they are upright growers and may be planted closer than other kinds. They are the best trees to plant where other walnuts are troubled with late spring frosts, as they do not start to grow or bloom as early by ten days as other varieties, and the fruit ripens a little earlier. The nuts bring four or five cents a pound more than the common English walnut. The shell can be easily broken by the hand. The meat is white and unusually sweet. 2 years old, 30c; 1 year old, $12.50 per 100; 2 years old, $17.50 per 100; $150 per 1000.

JAPAN WALNUT—Grows in clusters; very ornamental. 50c each.



KELSEY'S JAPAN PLUM.

PLUMS—Kelsey's Japan plum. Good reports from this plum continue to be heard all over California. Many good qualities are claimed for it, not the least important of which is its habit of early bearing, trees beginning to bear when only two or three years old. The fruit is of excellent quality, very beautiful, large, and a good shipper. All the young trees in this vicinity are doing well. 35c each; $30 per 100.



CHERRY PLUM.

Rather larger than a cherry but so much like it in other respects as to be easily mistaken for it; very early, prolific and good flavor; dark color, almost black.

STRAWBERRY GUAVA.

The hardiest of all the guavas; fruit, reddish purple, about the size of a green gage plum; very fine for jellies and preserves; bears abundantly two or more crops per year; an evergreen, ornamental shrub, or small tree. 20c each: good lants in 4 inch pots, $15 per 100.

FIGS—SMYRNA (true); the best type of this variety; a brownish golden fig of the largest and most superior qualities; the fruits often weigh ¼ pound each; the trees are hardy, grow in good form, bear early, regularly and abundantly. This is the genuine Smyrna fig. 3 years old (bearing.) 35c each.

SMYRNA, WHITE ADRIATIC—1 year old, 20c each; $15 per 100, $125 per M.

PEACHES—SALWAY. GEO. IV. Crawford's late, Peen-to (saucer), Lemon, cling, Hale's early.

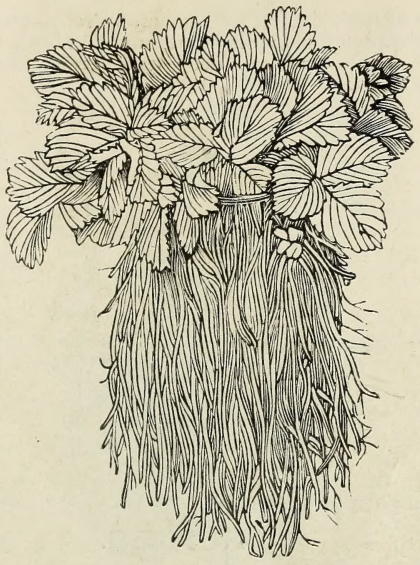
CHESTNUT—Japan Mammoth, 2 years, grafted, 35c each.

DIOSPYROS KAKI, THE JAPAN PERSIMMON OR DATE PLUM—This tree has now been fruited long enough to determine its value. The fruit is delicious, the tree grows and bears well, almost irrespective of quality of land. Ripens from August to November. The surplus fruit can be dried, in which state it is considerably superior to figs. The nomenclature of the Japanese persimmon is still very much confused, owing to the many different importations from Japan, in which the same name has often been given to several varieties, or one variety been burdened with several distinct labels. We have endeavored to obtain our stock from the most reliable sources, but cannot guarantee our nomenclature to be entirely correct. Best kinds (named), 3 year old grafts, (will bloom next year) 50c each.

KITTATINNY

BLACKBERRIES—Kittatinny (roots), 20c per dozen; $1.25 per 100; $10 per 1000

My strawberry plants are put up in bunches of 50 and are all picked plants, with good roots.



MONARCH OF THE WEST—50c per 100; $4 per 1000.

BUNCH OF STRAWBERRY PLANTS.

AUSTRALIAN CRIMSON—This strawberry was introduced into the Azusa valley a few years ago by E. J. Baldwin, who obtained the original plants, four only in number from Australia. It is thus described by one of the largest strawberry growers in Azusa: "It is a berry of superior excellence, unequaled by any on this coast. The plant is a vigorous grower, the fruit large and firm, and of excellent flavor. It is in color, crimson, sometimes pink or white on one side. Its large size and inviting appearance makes it more salable than any other kind." Price, 75c per 100; $5 per M.

ORANGES and LEMONS—Prices on application.

SHADE TREES.

Marked with a star (*) are deciduous, others are evergreen.

*CATALPA SPECIOSA—Tall, rapid-growing tree, with large leaves and clusters of pretty flowers. Price 25c each. Trees are 4 and 6 ft. high.

*TEXAS UMBRELLA TREE—A beautiful dark green-leaved tree of medium size, which grows in the form of an umbrella; the blossoms are light blue, followed by white, berry-like fruits in clusters. 3 to 7 feet, 25c to $2 each, according to size. A large stock on hand to choose from.

PEPPER TREES—All sizes from 3 to 7 feet. Price 10c to 25c each.

BLUE GUMS—2 to 3 feet, in pots, 10c each. In boxes 6 to 12 inches, $1.00 per 100; 1 to 2 feet, $1.25 per 100; 1 to 2 ft. in cans, $3 per 100.

GREVILLEA ROBUSTA—A beautiful tree of rapid growth, with fern-like, dark green foliage and orange colored flowers. 10 to 25c each. Smaller trees in boxes, for avenue planting, $7.50 per 100.

PAULOWNIA IMPERIALIS. EMPRESS TREE—A large-leaved, rapid growing, hardy tree, bearing large panicles of light blue flowers, fragrant and pretty. Price 25c each for small trees.

CINNAMONUM CAMPHORA—(Camphor Tree) This tree should be cultivated everywhere where the thermometer does not fall below ten degrees below zero, Farenheit. It is one of the most beautiful evergreen trees imaginable; attains a height of fifty to sixty feet, of an upright habit, forms a beautiful dense crown; is entirely free from disease or insects; most valuable for its wood; from it is extracted the camphor of commerce. An avenue of these trees, or single specimens are superb. Is of rapid growth. 25c to $1 each.

CINNAMONUM SERICEUM—(Cinnamon Tree)—From the bark of the root of this tree is gained the cinnamon so much used in our kitchens. Very interesting, oraamental, leaves ovate of a deep dark green—habit same as camphor tree. Price 25c to $1 each.

ROSES.

ROSES—From open ground, all colors, 25c to 75c. In pots from 10c each.

ORCHIDS.

ORCHIDS—To this interesting family Japan furnishes some very fine specimens, the great advantage being that they are all cool house. Can stand a very low temperature.

AERIDES JAPONICUM—This ephyphital Orchid bears masses of white flowers with a lilac lip; it is highly sweet-scented. Fasteued to blocks or limbs of a tree it will in masses produce a very striking effect. Fine plants, $1.

ANGRAECUM FALCATUM—A free flowering, beautiful small variety, of a clear, ivory white, which when grown in masses is very striking; especially for fine bouquets. Price 75c each.

OPHIOGON JABURAN—A very handsome plant, foliage most beautifully variegated, producing masses of blue flowers in upright spikes; the foliage is beautifully variegated green and white. Very fine in open ground or pot culture in winter. An elegant house decoration plant. Price $1

BLETIA TANKEKVILLA (Phajus Grandifolius)—The beautiful veiled-nun flower. Price, $1.

CACTUS.

CACTUS—An extremely curious and interesting genus of plants, many of the varieties producing magnificent flowers of the most brilliant and striking colors; succeeds best in sandy loam, mixed with a little peat. Water very sparingly.

CEREUS GRANDIFLORA—Night blooming cereus. Flowers enormously large, and of the rarest beauty, pure white and opening only at night; stock long, four angled. 15c to $3 each.

C. TUBEROSUS—A most distinct cereus; slender bet upright growth; blooms freely first year. Mexicans steep the teberous roots in alcohol, and use the decoction to rub on parts of the body effected with rheumatism. 25c each.

C. FLAGELLIFORMIS—The rat-tail cactus. Perhaps too well known to require description; of dwarf drooping growth; 15c to 75c each.

C. COLUMBINUS—Most desirable cereus, quick, strong growth, fine large, white flowers, opening at night, as well as fine fruit. 15c to $3 each.

STAPELIA VARIEATA—Bears beautiful flowers, having a leathery texture; color, buff yellow, with maroon markings; blooms when quite small; 15c.

PHYLLOCACTUS—Kermesinus Magnus. Scarlet flowers 6 inches across; 15c to 75c each.

ECHINOPRIS EYRIESII—Well known species, neat in shape and free bloomer; flowers 6 to 8 inches long like a curved funnel; color pink and very fragrant. This plant produces many offsets that soon make nice little specimens; 15c to 75c each.

PAMPAS PLUMES.

California is now to the front of the world over for producing the best Pampas Plumes ever put on the market. They bring the highest price in Europe, and the demand generally greatly exceeds the supply; 10c each, 3 for 25c.

DUARTE PAMPAS PLUME ROOTS—As I know of no better paying crop than this noble grass which neither insect or animal destroy—and which requires but little attention in its cultivation, I advise farmers to plant extensively, assuring them that in three years time the crop will pay equal to oranges, be easily harvested and readily marketed. The Pampas plume thrives best on a sandy loam, although it will grow even on adobe; requires attention only such as irrigation and cultivation through the spring months. In planting, set in rows ten feet apart and twenty feet between the rows. Beware, however, of poor stocks, of which there are many in this vicinity. What I offer will produce the best plume known for size, texture and purity of color. Roots per 100, $15; extra large roots, 25c each.

Send for pamphlet on Pampas culture.

CLIMBING PLANTS.

(Except where noted, from 4 inch pots.)

WISTEERIA SINENSIS—The single blue and white variety; strong, grafted plants will bloom at once; in large cans; $1 each.

AMPELOPSIS QUINQUEFOLIA—The well known Virginia Creeper or Woodbine. 20c.

ENGLISH IVY—Well known climber. 20c.

ROSES—Mar. Niel, LaMarque and others; from 15c to 35c each. The new climbing rose; Reine Olga de Wurtenburgh, is crimson with white center. Very profuse bloomer and dark glossy foliage—price 20c.

BIGNONIA RADICANS—Trumpet vine; 25c.

ASPARAGUS TENUISSIMUS—A new ornamental climbing asparagus, much used for bouguets and cut-flower work; 15c each

HONEY SUCKLE—(Japan sweet scented.) 20c.

DOLICHUS LIGNOSUS—Sweet scented, rose-colored flowers; 15c each.

PASSION VINE(Constance Elliott)—White; 20c.

CINNAMON VINE—15c each.

RHYNCOSPERNUM JASMINOIDES—A valuable evergreen hardy climber. Flowers white and fragrant. From five inch pots, price 50c.

CATALONIAN JESSAMINE—Flowers white, very fragrant. A shrubby, half-climing species. Price 15c each.

TECOMA JASMINOIDES—An Australian climber, of great beauty: flowers white with pink center. Price. 25c each.

CAMSIDIUM FILICIFOLIUM—Delicate, small leaves, resembling fern fronds: the flowers are small, of a rich orange color. An elegant climber. Price 30c each

TASCONIA(—?)—Large, orange-colored flowers ; very rare; 30c.

HONEYSUCKLE—Reticulata Aurea. (Golden Leafed)—Remarkably beautiful foliage. 25c each.

DOUBLE WHITE VIOLET.

VIOLA ODORATA (Sweet Violet)—Marie Louise, double purple, white center: Swanley White, double white; in boxes, 50c per dozen.

ORNAMENTAL TREES AND SHRUBS

ARAUCARIA EXCELSA—Norfolk Island Pine: a magnificent tree with straight trunk and pyramidal head: branches comparatively short and slender, closely set with foliage, horizontal when young, the whole presenting a most beautiful and symmetrical appearance. Price, $1 to $5 each.

ACACIA DECURRANS } Charming, hardy Acacias with yellow flowers.
" FLORA BUNDA } Price, 25c each.

NANDINA DOMESTICA—An elegant Japan plant with most beautiful foliage, variegated green, yellow, scarlet and crimson; white flowers and bright red berries; very ornamental, hardy, out-doors. Price, $1 each.

HIBISCUS MUTALIS—Mexican rose: Cotton rose. A good lawn plant: hardy here: showy flowers, white and pink, changeable: native of China: 25c each.

HABROTHAMNUS—Shrub or small tree, one of the gayest, with its pinacles of crimson flowers; winter bloomer; price 50c.

TREE BOX—Dwarf, compact, elegant evergreen shrubs; price 15c.

MONTEREY CYPRESS—Well known evergreen of rapid growth; price, 25c.

ITALIAN CYPRESS—Grows erect like a column: 2 ft., 10c each: 3 ft., 15c each.

LAURUS TINUS—The handsomest winter flowering shrub: bears abundance of clusters of pretty white flowers; price 25c.

RHODODENDRON—Magnificent flowering evergreen shrub, preferring a peaty soil and somewhat shaded situation; $3.50 each.

CRYPTOMERIA ELEGANS—One of the most ornamental conifers, and by far the handsomest of all eryptomerias; of a feathery appearance, resembling somewhat the Cedrus Deodora, of a silvery or glaucuous green color, which in a cold climate turns to a most beautiful reddish brown in winter, forming a striking contrast with the darker conifers. Should be planted everywhere for its great beauty. 75c each.

GARDENIA RADICANS FLORE PLENO (Cape Jasmine)—Of this favorite and choice evergreen I have strong plants 1 to 3 years old. In 4 inch pots, 25c; very large plants, 75c each.

JACARANDA—The Brrzilian Rose-wood Tree, with fern-like leaves; quick grower and very handsome. Will not stand much frost when small; 3 to 7 feet. 75c to $3 each, according to size.

SCIADOPITYS VERTICILLATA—(the Japanese Umbrella Tree)—Has been recognized as the grandest conifer in the world. Its appearance is truly wonderful, once it has attained large size. It attains a height of 80 feet Is at first of slow growth, but once established is not behind in growth to any other conifers. They are perfectly safe to transplant and hardy all over the United States. Plants from 1 to 3 feet. Price, $1 to $5 each.

RETINOSPORA—Of this most interesting class of conifers I have a large assortment of the showiest varieties, 18 inches high. 75c to $1 each.

AZALEA SINENSIS ALBA—Very large single white flowers, evergreen, very hardy, grows in bush form. $1 each. Same with large lilac-red flowers, $1 each.

OLEA FRAGRANS—Beautiful dark green foliage, much admired for the delicious fragrance of its blossoms. One plant is enough to scent a whole room. White or yellow flowers; blossoms in Japan in October. Plants, according to size, from 75c to $1.

ARALIA SIEBOLDI—Australian Flame Tree, Fine plants, 75c to $1.50.

CAMELIA JAPONICA—Of these beautiful favorite evergreens, which for outdoor growth in mild climate and for house culture in cold, have no equal, I have a large stock on hand of all colors, at prices very low.

DOUBLE PINK OR WHITE—1½ to 2 feet high, $1 each, or the pair for $1.75. Smaller plants 50c.

DOUBLE RED OR VARIEGATED, same size, $1.25 each. These are well-shaped, good plants. A very few large plants (about 3 feet high, set with buds, $2 to $6 each, according to shape.

MAGNOLIA GRANDIFLORA EXONIENSIS—A variety of evergreen, large-leaved magnolia, which unlike the other of its species, which bloom only at 8 or 10 years of age, produces large, white, sweet-scented flowers when from 1 to 2 feet high. In all other points, height, appearance, etc., is similar to Florida Magnolia. Is originally from China. Price, $1 to $2 each.

M. FUSCATA—The Banana Shrub. Dwarf growing variety, covered with a profusion of small flowers in April and May, of most exquisite fragrance, similar to that of a ripe banana. Price, $2.

FISCUS ELASTICA—The India rubber tree; is of rapid growth and very decorative, but will will uot stand much frost. $2 each.

EUONYMONS JAPONICUS—Chinese Box, Spindle Tree. This variety has foliage finely variegated with yellow and green. Price, $1 each.

CORK OAK—3 to 4 feet high, 3 years old; $1 each.

CHINESE BAMBOO—Pot-grpwn plants are safest for transplanting, but root enttings, if kept moist and attended until fairly well established, are equally to be recommended. Pot plants, 30c to $1.50.

IRISH JUNIPER, Scotch Pine, Ameriean Balsam and other evergseens in large cans; 1 to 3 feet high and sure to grow with the most ordinary attention; 50c each.

TREE PÆONIAS—Choice assortment (Japan), 2 years from graft, $2 to $3.

AMERICAN EUONYMUS—25c each.

MONTEREY PINES—Fine young trees (balled), 30 tnches to 4 feet high, 30c each; $25 per 100.

Special rates on any of above in large quantities, for street or park planting.

HEDGE PLANTS.

HEDGE PLANTS of Monterey cypress per box of 100, $1 and $1.25; in pots, 12 to 24 inches high, 5c each, $3.00 per 100.

BORDER PLANTS.

FEVERFEW, Pinks and other border plants, in boxes of 50 and 100, at low rates.

PANSY.

Pansy seed, saved from my own show plants, 10c per packet of about 100 seeds.

PALMS, &c.

CYCAS REVOLUTA (Sago Palm)—This is one of the grandest palms grown. Hardy out doors up to 20 degrees above zero. Fine specimens with roots and crown well developed in leaf. From $3.50 to $15 each.

CHAMAEROPS EXCELSA SINENSIS (Short-leafed fan palm)—Of this beautiful palm I have specimens fron 1 to 2 feet in heigth. Price, $2 to $5 each.

PHŒNIX CARARIENSIS—The common date palm; large plants; price $2 to $5 each.

RAPHIS FLABELLIORMIS—The handsomest, rarest palm of Japan; strong plants, 2 to 3 feet high. Price, $2 to $5 according to number of shoots.

PRITCHARDIA FILIFERA—The California fan palm: price 25c to $1 each.

YUCCA FILAMENTOSA—Adam's needle and thread. Good sized plants 25 to 50c.

DRACENÆ DRACO SPECTABBILIS—The Dragon's Blood tree of the Canary islands. Price, $1.

DRACENÆ AUSTRALIS—Broad and narrow leafed varieties, 50c to $1 each.

D. TERMINALIS ROSEA—Foliage green and bright carmine. Easily grown, and a magnificent plant for decorative work. 75c each.

YUCCA ALOIFOLIA—Spanish Bayonet, Spanish Dagger. Flowers resembling those of Y. filamentosa, but borne on a shorter stock. Stem arborescent: sometimes 10 to 20 feet high. Very ornamental, even when small. Will bear much neglect. Large plants, 50c to $1 each.

ORNAMENTAL EUCALYPTUS.

E. VIMINALIS—Manna gum.

E. CITRIODORA—Lemon scented gum. A useful timber. The strong lemon scent which is emitted when the leaves are gently rubbed, is equally powerful and agreeable with that of the lemon scented verbena.

E. LEUCOXYLON—Crimson Flowered Eucalyptus. This is a very ornamental species of eucalyptus, having large and very beautiful flowers, color, crimson: and as the tree flowers when quite young, it is very desirable as an addition to the shrubbery or flower border. Plants from 1 to 3 feet, in 3 and 4 inch pots. 15 and 20 cents each.

E. CALLYPHILLA—Very orgamental, low-growing gum, with glossy leaves.

BLUE GRASS AND WHITE CLOVER SEED--40 cents per pound.

MISCELLANEOUS PLANTS.

SMILAX—An easily grown climber, used extensively for decorating. 10c.

EULALIA JAPONICA ZEBRINA—This is one of the most beautiful and distinct hardy plants in cultivation. Unlike all other variegated plants, this has its stripping across the leaf, instead of longitudinally. It grows from five to seven feet in height, forming a most striking and graceful plant, resembling nothing else that I know of. The expanded flower spike, resembles the ostrich plume, and when dried will last for years. Plant entirely hardy. Whether used for a single plant or for groups on lawns it has no equal. 30c each.

E. JAPONICA VARIEGATA—A hardy perennial from Japan, with long, narrow leaves striped with green and white, throwing up stocks four to six feet high, terminating with a cluster of flower spikes on which the individual flowers are arranged; the flowers are surrounded with long, silky threads, which, when ripe or placed in a warm room, expand, giving the whole head a most graceful and beautiful appearance, not unlike that of an ostrich feather curled. 30c each,

HELIOTROPE.

HELIOTROPIOM—The exquisitely fragrant flowers of the heliotrope are known and appreciated by everyone. 15c each in 4 inch pots.

NERIUM (Oleander.)—Pink and white, single and double; 25c to 50c each.

SPIRÆA—Single and double: 25c each.

VINCA—Madagascar periwinkle. Vincas are the most satisfactory plants for the open ground, thriving in any situation, and very showy. 10c each.

MARGUERITE—White; 10c each.

WALL FLOWERS—Yellow and brown, 3-inch pots; 15c each.

SWEET WILLIAM—Choice strain, 3 inch pots; 15c each.

PELARGONIUMS (Lady Washington Geranium)—Very finest colors, from pure white to very dark red, including many new colors; 25c each.

STRIPED MAIZE GRASS—Very ornamental, tall growing grass. Very large plants, in cans, 50c each.

CARNATIONS—Many popular flowers are attractive only in color, but the carnations, with their lovely colors and sweet clove fragrance, have found a specially warm place in the heart of the American people. They are so universally planted and admired, that a general description is not necessary. Large plant, 20 to 25c.

HYDRANGEA—Paniculata grandiflora. The hardy hydrangea. Flowers white in immense trusses. Large plants, 35c each.

LANTANA—The lantanas are favorite showy plants for the open ground. Colors often changable. Easily grown and satisfactory plants. 20c each.

GERANIUM—Double, single and ivy leafed. 10c each; $1 per doz., 4 in. pots.

FUCHSIA—As fuchsias are rather difficult to summer, I keep but a few plants of the best kinds, 25c each for large plants.

TRITOMA UVALIA (Grandiflora Major)—Red hot poker plant. Large plants, 40c each; smaller, 25c each.

CHRYSANTHEMUMS—Large plants of best kinds, colors from pure white to dark red, from 5 and 6-inch pots. 25c. Will bloom in November and December.

TABERNÆMONTANA CORONARIA—A very pretty, (but also very tender) plant bearing in profusion snow white flowers of delightful fragrance. Price, 5 inch pots, 50c.

TRADESCANTIA—Cyanotis Multicolor. This is an extremely handsome variety of Tradescantia Zebrina. The leaves are more or less striped with creamy white and pink. 10c each.

DICENTRA SPECTABILIS—A hardy perennial plant with rose colored flowers in great abundance; perfectly hardy and easily cultivated. 20c each.

PLUMBAGO—Blue and white, 4 in. pots; 25c each.

ERYTHRINA—"The Erythrynas (Bois Immortelles, as they call them here,) their all but leafless boughs, now blazing against the blue sky with vermillion flowers, trees ef red coral, 60 feet in height."--*Kimgsley*.

E. CRISTA GALLI--Coral tree; large plants, $1 each.

BULBS, &c.

AMARYLLIS

AMARYLLIS JOHNSONII—Good blooming bulbs, 25c each.

TUBE ROSES—(Double Pearl) 5c each.

,, CLUMPS—50c each.

DAHLIAS—Find named varieties, 10c each.

FUNCIA JAPONICA(Day Lily, white,)—25c. Good plants.

GLADIOLAS—Light colors only; price, 10c each. 3 for 25.

KÆMPFERI JAPONICA(Japanese Iris)—Very fine, all colors. Clumps, about four inches square, 25c each.

CANNAS—Choicest colors only; all have bloomed for me this year. Good roots, 10c each. 6, all different for 50c.

CALLADIUM ESCULENTUM—1 year bulbs 10c.

CALLA LILIES—Extra large bulbs, 15c each. Smaller sizes, $1 per dozen.

CHINESE NARCISSUS—10c each.

MUSA ENSETE (African Banana)—Large plants, 50c each.

BANANA (Edible)—25c each.

NOTICE.

I have always on hand a stock of ornamental plants in 9 and 12 inch pots suitable for decoration of rooms for receptions, balls, etc., which I will loan out on reasonable terms, but must decline hereafter to lend such stock without a proper renumeration.

I invite inspection of my stock, and am always pleased to receive visitors, whether intending purchasers or not. A visit to my green house will pay you. I would also say that I am always adding to my stock, such novelties as I think would suit this location, and that the list only comprises standard plants and trees of known excellence, and in every way suitable for out-door culture in this and adjoining counties.

MONROVIA MESSENGER PRINT.
